KUKIL INNTOT CO., LTD.

KUKIL INNTOT is a professional manufacturer of gasket, packing coupling with the latest technology not only for the plant but also the plant maintenance and emergency repair.

RUBBER SHEET GASKET

Type ' KR 6 '

Product Reference :

K/# KR 6

Description :

The silicone rubber has good heat-resisting property next fluoro rubber, and has the best electric property compare with other rubber, also good for elasticity, weatherproof and ozone-proof.

On the downside, the high strength silicon rubber should be used for difficult dynamic conditions because mechanical strength is low.

Service :

Maximum recommended Temperature : -70 ~ 250 °C

Maximum recommended Pressure : 10 Kg/cm²

Applications :

Cold, ozone-proof and weatherproof .

Good for chemical resistance.

Where electrical insulation is required.

Construction :

Silicon Rubber

Gasket Design Data :

Hardness Shore A	Gasket Factor " m "	Min. Design Sealing Stress " y "
Below 75	0.5	0 psi
Over 75	1.0	200 psi

Availability :

Gasket Size : Max. Ø1200

Thickness : 1.5mm, 3.0mm, etc.

Remark :

- The specification of product is written by manufacturer, and it is changed frequently.
