KUKIL INNTOT CO., LTD.

KUKIL INNTOT is a professional manufacturer of gasket, packing coupling with the latest technology not only for the plant but also the plant maintenance and emergency repair.

RUBBER SHEET GASKET

Type ' KR 7 '

Product Reference :

K/# KR 7

Description :

KUKIL KR 7 is a copolymer of isobutylene and a small amount of isoprene, which is excellent in weather resistance, ozone resistance, heat resistance, and vapor resistance, and is most often used in automobile tubes due to its low gas permeability.

Service :

Maximum recommended Temperature : -40 ~ 100 °C

Maximum recommended Pressure : 10 Kg/cm²

Applications :

Brake fluids with glycol base.

Salt solutions.

Alcohols and ketones.

Silicone oil and grease.

Ozone and esters.

Construction :

IIR Rubber (Isobutylene Isoprene Rubber)

Gasket Design Data :

| Hardness Shore A | Gasket Factor " m " | Min. Design Sealing Stress " y " |
|------------------|---------------------|----------------------------------|
| Below 75 | 0.5 | 0 psi |
| Over 75 | 1.0 | 200 psi |

Availability :

Gasket Size : Max. Ø1200

Thickness : 1.5mm, 3.0mm, etc.

Remark :

- The specification of product is written by manufacturer, and it is changed frequently.
